

PAVEMENT MAINTENANCE PLANNING (PMP)

Schlouch Incorporated's long-term, proactive maintenance approach is an effective method of extending pavement service life.

What We Do

- Inventory all of your asphalt surfaces as to present condition, type of use and repairs needed
- Prepare a two to five year maintenance analysis for all inventoried areas
- Prioritize necessary maintenance
- Recommend a program that includes timing and budget to reduce potential liabilities and emergencies
- Collect and review pavement condition data annually

The PMP Advantage

- Reduces potential liabilities
- Significantly extends pavement life
- Makes scheduling of maintenance more efficient and predictable
- Allows for more accurate budgeting
- Keeps paved surfaces attractive and inviting
- Minimizes structural failure and need for costly repaving

The Final Step

Schlouch Incorporated's Pavement Maintenance Planning program provides a multi-year approach for contracted pavement maintenance services and provides an annual review of current and future pavement network conditions.
