

ASPHALT CRACK AND JOINT SEALING

Crack and joint filling on asphalt surfaces increases the life of the pavement and reduces the need for frequent, costly repaving.

What We Do

- Clean all foreign material from the crack
- Mechanically route cracks when necessary
- Determine and select the proper sealant for the use and weather conditions of your area
- Select the proper filling and sealing method to ensure proper bonding
- Fill and seal cracks using state-of-the-art equipment and skilled installers

Who We Serve

- Commercial business parks, distribution centers and individual plants and offices
- Retail establishments and shopping centers
- Hotels, motels and restaurants
- High schools, colleges and universities
- Sports complexes
- Local, county and state governments

Selecting Schlouch Is Selecting Experience

When you choose Schlouch Incorporated for your parking lot crack and joint sealing needs, you are selecting a team with years of experience in asphalt paving and pavement maintenance. Schlouch's trained professionals will keep your parking lots functional and looking better longer.
